MD FLEX COUPLINGS

IN STOCK + READY TO SHIP

WE HAVE THE FLEX COUPLINGS YOU NEED

- Available in sizes 3–14 in finished bores, both inch and metric
- Quick and easy installation
- No lubrication or maintenance required
- Allows for 4-way flexing (parallel, angular, torsional and axial)
- Smooth and quiet performance
- Sizes 3–5J and 5S are made from powdered metal, while sizes 6–14 are made from cast iron
- **Type E elements with retaining ring also available**

Type B Coupling

Type J Coupling

Type S Coupling

QUALITY, SERVICE + COMMITMENT

As an international manufacturer and supplier, MasterDrive proudly serves the power transmission industry throughout North America, Latin America and South America. Our parts are distributed from multiple locations in the U.S. and Canada. We offer web services, engineering assistance and unbeatable centralized customer service.

UNPARALLELED CUSTOMER SERVICE

Our centralized customer service guarantees you will speak directly to one of our highly-trained representatives every time you call. With ongoing product training, our representatives can provide you with accurate technical support.

Complete Manufacturing + Engineering Support

In addition to our full line of power transmission products, MasterDrive offers foundry and machining options for all types of gray and ductile iron MTO items.

Commitment to Distributors + OEMs

We promise to serve and protect every distributor's customer base and the OEM marketplace across multiple industries:

- Air Handling & HVAC/R
- Aggregate
- Wood Handling
- Power Generators/Engine
- Oil & Mining
- Agricultural Equipment
- Air & Fluid Handling/Pumping
- Construction

POWER TRANSMISSION PRODUCTS

MasterDrive is your partner for power transmission products. We can help you with:

- **Service** — We understand your industrial distribution needs and are ready to meet them with responsive customer service, a broad sales and distribution network, and local inventory through our 10 warehouses.
- **Availability** — Our warehouses are monitored and restocked using a logistics ordering system ensuring that you get the product you need.
- **Speed** — 95% of orders are processed the same day.
- **Quality** — From the selection and certification of raw materials used by our foundry operations through our exacting machining, balancing, and warehousing, our Quality Management System is in compliance with ISO 9001:2015.
